8	Hokkaido → Singapore	Hotel	✈		

Otaru: Along the sidewalk and pathway of the Otaru canal, there are many shops selling musical boxes, crystals and glassware that mirrors the romantic atmosphere of this enchanting town. You may like to try the Japanese Sumiyaki Coffee & Cheese Cake. (Own expense)

Washo Seafood Market: One of the three largest seafood markets in Hokkaido where a large variety of fresh seafood are sold at cheap prices. You may like to try their free-style rice bowl - Katte-don by purchasing a bowl of rice and match it with your favourite seafood!

Asahiyama Zoo: As everybody knows, the penguins swim as if flying in the water. There is a new idea for the zoo to let penguins exercise by "marching" along the street so as to reduce some fats during winter time. (*Penguin parade subject to weather condition)

International Crane Center: This center is the only place in Japan dedicated to Japanese cranes. The cranes are most spectacular to watch as they dance, often in pairs, with seemingly choreographed dips and jumps as they gather at winter feeding sites.

Snow Mobile Experience: Take an adventurous snow mobile ride in the forest filled with snow guided with experienced instructors! (Own expense)

Tokachi River: Each winter, part of Hokkaido's coast is covered in a natural phenomenon colloquially called "jewelry ice," in which a beach is covered in smooth blocks of ice shining like diamonds in the sun. (*Jewelry ice from mid-January until late February)

Note: The above itinerary may not be in sequence and is subjected to change without prior notice. Special phenomenon is subject to weather conditions.
